Thanks. This all seems fine, and makes sense to address the ILF question. This week, let's be extra sensitive to external communications, esp if he does call for follow up. Things don't go well for us when R9 quotes make it into the public without ORA/OPA awareness and management. Thanks -J

Hi Paul

Thanks for your email message. Yes, CEQ and EPA are traveling to Tucson next week to tour the site. They will be meeting with Pima County to listen to their concerns regarding the proposed Rosemont Mine. We were informed by the Corps, the proposed ILF project will not be considered as mitigation for the Rosemont Mine.

If you have any questions, please give me a call. I will be in the office Monday – Thursday next week.

Sincerely,

Elizabeth

Elizabeth

I understand that there is a CEQ delegation to Tucson regarding Rosemont that involves Pima County.

As the co-sponsor of the ILF program, should we be involved in this process?
